

OBEDIENCE TRAINING & BEHAVIOR PROBLEM SOLVING RESOURCES

READ ME FIRST!!! This list is provided by A.D.O.P.T. for your convenience. Inclusion of a particular training organization or trainer does not necessarily imply endorsement by A.D.O.P.T. As with any product or service you purchase, you should research your selection. Always call and ask a training organization or trainer their training philosophy and training method and then observe them in action BEFORE you sign up! If you are uncomfortable with what you are told and/or observe (i.e., your training philosophy/style does not match the trainer's), ASK QUESTIONS. If you are still uncomfortable, continue looking for the organization or trainer that is right for you and your dog or, if you are in the middle of already working with the trainer, leave. In addition, although we have done our best to screen the below listed organizations and trainers and believe them to have sound, safe, humane training methods, if you should find that an organization or trainer on this list "hangs" a dog by its leash and training collar is "discipline," or in any other way inflicts pain or psychological trauma on a dog, please notify A.D.O.P.T. immediately!
